Hi Britt,

Sad to see some drama come up over my add-on. A little ironic too in that it has always been challenging to find others to help keep things alive.

I fully believe in diruvutive add-ons as some great ones have come out from continuation of a favorite.

I, Connor Chenoweth (aka Maul), hereby grant Britt Yazel a full and exclusive licence to develop a fork of my add-on called Ion.

If Curse or WoWInterface need confirmation from me, please send them my way.

I look forward to see what you will do with Neuron (awesome name btw)
